Comments

- It was very useful to be informed on the experience of other colleagues in the management of new devices in treating AAA.
- Excellent congress
- Very beautiful organization of live cases
- I am coming every year and following two congresses: MEET and Phoenix
There is always something new and I get new information useful in my practice

Please give a summary of the information you received which will be useful in your practice

- Important information about the treatment of carotid stenosis
- Good information on carotid stenting
- The treatment of AAA with new devices....
- Endovascular treatment of AAA with new technique
- New access in the treatment of peripheral vascular disease
- New techniques of endovascular treatment of PAD
- News about aortic endografts
- I think for me it is very important to know how to approach chronic total occlusion and the demonstrations were excellent show clearly the steps to Get successful
- As a vascular surgeon I really appreciated the clinical practical cases and the manual ability showed during the Live cases
